## **DETAILED ACTION**

### ***Specification***

1. Applicant has overcome the objection to the specification.

### ***Claim Objections***

2. Applicant has overcome the objection to claims 4-6.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 1,088,621, as set forth in the Office action mailed 31 March 2004.

### ***Allowable Subject Matter***

5. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

6. Applicant's arguments filed 31 March 2004 have been fully considered but they are not persuasive. Applicant argues that '621 does not disclose controlling the grinding step such that grinding by a predetermined grinding wheel is terminated prior to a termination of grinding by the other grinding wheel, in that '621 must test the diameter of either grinding portion before selecting which wheel will stop grinding. "Predetermine" is

defined as: To determine, decide, or establish in advance:<sup>1</sup> There is no limitation as to how far in advance the determination must be made. Here, the predetermination is made at the time of testing the diameter of the grinding portions. If applicant has a specific step of determining which wheel is to be stopped first, it should be claimed. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
